

10 June 2026

Dear Valued Customers,

To ensure the sustainability of our service quality in our operations, it has become necessary to implement an adjustment to the freight rates for shipments carried out from all countries within the Arkas Line service network to the ports and inland delivery locations on the East Coast of the United States.

Accordingly, effective as of July 15, 2026, a freight rate increase of USD 200 per TEU will be applied across all equipment types.

Scope details are provided below for your information:

- **Origin:** All Countries
- **Destination:** Discharge ports; New York, NY – Norfolk, VA – Savannah, GA Inland delivery points and ramps within United States
- **Increase Amount:** USD 200 per TEU (all equipment types)

For further information, please do not hesitate to contact your sales representative. We appreciate your cooperation and understanding.
